

## Integrating Practice Plus from your Practice Website

### What is Practice Plus?

Practice Plus has been developed between Tū Ora Compass, Pinnacle Health Network, Think Hauora and Te Awakairangi Primary Health Organisations to increase access options for primary care. It involves a same day, after hours service in partnership with our GP network to secure a continuity of care between a virtual GP service and a patient's regular GP team.

There is no need for patients to download an app or change their enrolled GP, to access this service.

Practice Plus can be accessed through a practice's website or via this link - <http://www.practiceplus.nz>.

### How do I integrate our website with Practice Plus service?

Practices can add the **Practice Plus** button to link with the Practice Plus booking page - <https://m.practiceplus.nz>

The Practice Plus support team can provide you with the following buttons:

Standard	Branded
The standard logo consists of a teal cross icon to the left of the text "Practice PLUS", where "Practice" is in dark grey and "PLUS" is in teal.	The branded logo includes the text "Greytown Medical Centre" in red above the "Practice PLUS" logo. The word "(sample)" is placed to the right of the logo.

Send an email to [support@practiceplus.nz](mailto:support@practiceplus.nz) to:

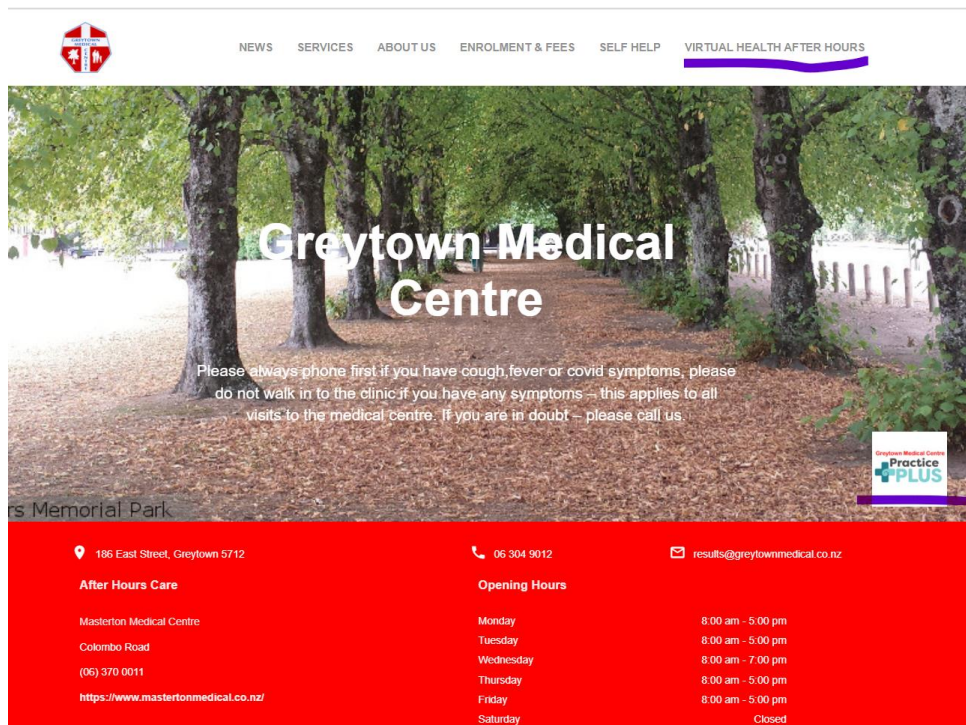

- a. request the standard or branded version, and any style guidelines for your practice name if applicable
- b. inform us where you would like the button placed on your website as per the options on page 2.
- c. if you would like us to work directly with your website provider (if you have one) to install the logo on your website. If so, please email us their contact details (please note there maybe a charge to your practice for this work)

## Where should I place the buttons?

You can add the **Practice Plus** button:

1. Anywhere on the **front page** of your website (please advise where) or
2. Create **another page/tab** specific to Practice Plus or
3. **Both** - on the front page and a separate page
4. **Other** - please specify
